

Precautions and Tips - Read before use.

First time use - Examine box contents, ensure all included parts are good condition, not damaged from shipping. Check glass parts for cracks or breakage.

* Choking Hazard - keep packaging materials, bags, small parts away from children and pets.

WARNING: HOT PARTS - Handle hot parts and glass parts with care. Glass parts get HOT, wait 5 minutes to cool before touching glass parts and on or near previously heated areas of the unit, namely top area. Do not place hot parts on wooden/fabric/plastic or non-heat safe surface. The inner stainless steel dish and surrounded area gets hot, do not touch or put fingers or non-heat safe materials into the dish. Arizer™ and affiliated companies are not liable for injuries or burns associated from touching hot parts.

While glass parts are made from strong borosilicate glass, borosilicate glass is breakable. Handle with care and caution. Avoid tapping on hard surfaces to prevent cracking and breaking. If a glass is dropped or sustains an impact examine for cracking, chipping and weakness before use. Due to the fragility and nature of glass Arizer™ and affiliated companies are not responsible for cuts or injuries sustained from breakage. Do not expose hot glass parts to cold water or extreme temperature change as this may result in cracking/breaking.

Do not leave the unit turned on and left unattended.

Allow heating unit and hot parts to cool before placing in purse, pocket or any container where damage from hot parts can occur.

Product is not licensed as a medical device, use unit only for it's intended use.

Product contains electrical and delicate parts, do not drop. If damaged don't operate. To protect/prevent against electric shock/fire never immerse or operate the product in or around any water/liquids.

Do not stick or pour anything in the unit or place near flammable material. Do not store/operate/expose the unit and contents to extreme temperatures. Do not open the unit, doing so may cause electric shock and voids warranty.

Keep out of reach/use from children, minors and pets. Failure to read or follow instructions, improper or careless use may lead to personal injury. Arizer™ and affiliated companies cannot be held responsible.

Arizer™ and affiliated companies will not assume any liability for injury or damages resulting from the use or misuse of this device. Use of this product is intended for use with the botanicals described herein, Arizer™ and affiliated companies are not liable for use with other than those botanicals described herein. Company's liability for damages in connection with the product and it's parts shall not exceed the purchase price of the product.

Lithium Battery Handling / Warning - Read and follow data sheet insert included in package.

IMPORTANT NOTE: Obey local laws. Not all essential oils, botanicals and herbs are legal for use in every Country or State. Check your Local, State, Federal and Importation laws before ordering botanicals. This device is meant for legal use only.

Warranty

Two years parts & labor against defects in material or workmanship, excluding battery. Lifetime warranty on heating element. Glass is not covered under warranty. Retain proof of purchase for warranty service. Returning the product and costs incurred are the responsibility of the user. Arizer will repair or replace warranted items at our discretion.

The Warranty does not cover units damaged by dropping, tampering, unauthorized service performed or attempted, modifying the unit, misuse or abuse.

Arizer - Air

Multi-Purpose Micro Heater

Aromatherapy | Essential oils diffuser
Potpourri warmer | Dehydrates herbs

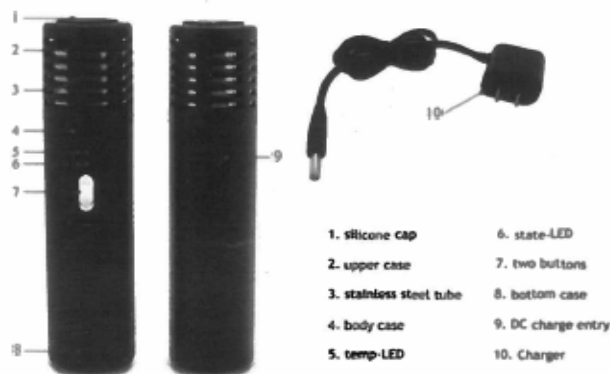

Owners Manual

(Read before Using)

Operation

First Use: Warm up unit on high setting a few minutes before inserting glass stem. This makes the stem easier to insert and is only required until the connection is broken in.

Buttons

- Press and hold center of Up/Down button to turn unit on or off.
- UP arrow raises temperature, DOWN arrow lowers temperature.
- **To Recall last temperature setting:** Turn unit on, press Down button for 2 seconds.
- **Turn on/off audible beep tone:** Press and Hold Up button for 2 seconds.

State - LED

- Blue: Flashing indicates unit heating, Solid Blue indicates set temperature is reached.
- Red: Solid Red indicates the battery is low and needs to be charged.
- Green: Flashes in the charging process, Solid green indicates battery is charged.

Operation

- Turn Unit On: Press and hold center of Up/Down button for 3 seconds.
- Set to Desired Temperature: Press UP button, top LED indicates temperature setting, Blue, (lowest), White, Green, Yellow, Red, (highest).
- Turn unit off: Press and hold center of Up/Down button for 3 seconds.

Charging

- When Battery is low the lower LED glows solid red.
- Plug in the charger / adapter (only the supplied adapter can be used).
- Flashing green indicates charging.
- When battery is full, the LED will glow solid green.

Changing the Battery:

- The Arizer Air features the ability to replace with a full charged battery on the go.
- Unscrew and remove the bottom end cap, replace with fully charged battery.

Auto Shut Off - 10 minutes

Weight approx 110g

122mm x 29mm

Adapter charger: 5V/1.2A

Unit can be used when plugged in to AC power.

The glass dish or glass diffuser stem can be used depending on materials, for aromatherapy use the dish, for inhalation use the glass stem:

Potpourri, Botanicals, Flowers

Use low heat setting

Essential Oils

Place small drop on cotton ball

How to easily fill the glass stem dish

*Use coarse ground botanicals otherwise air flow can be diminished.

With ground botanicals in a container simply push the glass stem into the container ever so slightly twisting as you push downward. This fills the dish. Be careful not to press too hard or it may pack too tightly. After a few times filling it's easy to learn the simple technique. Using the product this way takes advantage of it's design and ensures easy maintenance and optimal performance. To empty the stem use the stirring tool.

Experiment with the temperature settings and set to your own preference. Varying factors will determine the temperature setting to use. Such as, type of botanicals, moisture content, whole flower or ground form etc. Small amounts are recommended to ensure proper release of the herbal essences.

Aroma's from the following botanicals can be heated and vaporized - Chamomile, Sage, Eucalyptus, Lavender, Lemon Balm. Use only with recommended botanicals, other use may pose health risk. Consult your Physician or Medical Professional before use.

Cleaning

After numerous uses the glass parts should be thoroughly cleaned to ensure optimal performance.

Glass Diffuser Stem

Unscrew and remove black mouthpiece tip from glass. Rinse tip and glass in isopropyl, (rubbing alcohol), and/or dish soap, then rinse with hot water. Repeat as necessary. Do not soak black tip in alcohol for more than 30 minutes.

Dish

Soak in dish soap and warm water and rinse.

IMPORTANT SAFETY INSTRUCTIONS AND WARNINGS:

You must read and understand these safety instructions and warnings before using or charging your Arizer Air Batteries. Lithium batteries are volatile. Failure to read and follow the below instructions may result in fire, personal injury and damage to property if charged or used improperly.

Arizer, its distributors and / or retailers assume no liability for failures to comply with these warnings and safety guidelines. By purchasing this battery, the buyer assumes all risks associated with lithium batteries. If you do not agree with these conditions, return the battery immediately before use.

General Guidelines and Warnings:

- Always handle your batteries with care — Never drop them!
- Fully charge your Arizer Air Batteries before first use.
- Lithium batteries can explode or cause a fire if they are used incorrectly or if they are defective. Do not tamper with or misuse the Arizer Air Batteries and do not use damaged / defective batteries.
- Arizer Air Batteries are manufactured to strict quality standards and designed specifically for use with the Arizer Air.
- All Arizer Air batteries contain built-in fault and heat protection for added safety.
- It is recommended to use Arizer Air Batteries & Arizer Air Chargers. Do not use any third-party or unknown brand batteries or chargers.
- Always match positive (+) and negative (-) when inserting batteries into the Arizer Air and Arizer Air Battery Chargers.
- Batteries that are not in use should be stored in a safe, cool, dry place, individually in a plastic holder or container / away from all metal objects.
- Do not store your batteries fully charged or fully drained for extended periods of time (one month or longer).

Disposal Guidelines:

- Never throw the Arizer Air Batteries away and never put them into a battery collection box. If you have dropped it or notice physical damage you should take the following steps:
 1. Store the battery in a safe, dry place. Leave it there for at least one hour in case there is a short circuit and the battery starts heating up.
 2. Check to see if the battery has become hot. If so, leave the battery until it has cooled off.
 3. For further protection, wrap the battery in a piece of kitchen paper and seal it with tape.
 4. Put the battery into a box and label it, Lithium-Ion battery. Hand it in to a chemical waste disposal facility.

Counterfeit & Inferior-Quality Battery Warning:

- Customers are urged to be careful when purchasing batteries due to the flood of counterfeit and inferior-quality batteries for sale often found on online-auction and various websites.
- The use of counterfeit and/or inferior-quality lithium batteries can cause internal shorts leading to fires and/or explosions which can result in property damage and/or personal injury.
- The use of counterfeit and/or inferior-quality batteries could greatly reduce runtime and output performance, damage your Arizer Air, constitute a safety hazard, and voids all warranties.

*****IMPORTANT*** FIRST-USE INSTRUCTIONS**

The Glass Aroma Tubes may fit tightly in the unit at first, but the fit will loosen up after some use for optimal air flow and efficiency.

If you are finding it difficult to insert the Glass Aroma Tubes into your unit please do the following:

-Turn on the unit and set the maximum temperature

-Let the unit run for a full heat cycle

-Align the Glass Aroma Tube with the heater and firmly press the Glass Aroma Tube into place

FIRST-USE INSTRUCTIONS *IMPORTANT*****
